

A corporate decision from Sinclair Broadcasting to force all local affiliates to air a clearly anti-Kerry "documentary" two weeks before the election is wrong and unjust. Sinclair has a responsibility to serve the local public interest, and this is essentially a 124 station hour donation to the DNC. If this documentary is going to be shown, under equal time rules, two hours on each station should be donated to the DNC for a rebuttal. A two hour rebuttal which could possibly be Michael Moore's Film, Fahrenheit 9/11.

It is outrageous that a corporation would abuse the public trust given them in the form of the free license to broadcast. Sinclair broadcasting should be fined in the maximum amount if this anti-Kerry piece is shown without equal time given to the DNC for rebuttal.
